

Protecting You

This establishment invests in the health and safety of its patrons and employees by utilizing A&S Total Cleaning's **ELECTROSTATIC SPRAYING**.
ELECTROSTATIC SPRAYING.

To prevent the spread of disease, this area has been disinfected by A&S Total Cleaning's certified health and safety technicians. Electrostatic spraying is 99.999% effective in killing bacteria and viruses with EPA registered, hospital grade disinfectant. This state-of-the-art technology addresses dangerous disease-causing pathogens and is uniquely designed to protect you.
